

General information

Phone _____

New equipment
Retrofit

Quantity _____

Company _____

Contact person _____

E-mail _____

Maritime use

Intended use _____

Measurement range

Accuracy

Operating temperature

Explosion protection

Nominal load _____

Standard 0,5% FS active
1,0% FS passive

Standard -40...80°C

2G IIB T4

Ex i (4...20mA_2-wire only)

Max. load _____ Breaking load _____

Measurement range _____

2G IIC T4

Geometry

The desired geometry of the sensor or the installation situation is provided by the customer in separate drawings.

Output signal

Output signal:

Number of channels:

Performance level:

PL c

PL d

Connection

Connector

Standard M12x1

Cable _____ m

Looped signal

(CAN In & Out)

Standard hybrid connection

Signal and supply

on separate connections

All channels on one connection if possible

One separate connection per channel

All sensors at least IP66/ 67. IP69 on request.
